ABOUT ME

Aspiring Full Stack Developer with hands-on experience in ASP.NET Core, MERN Stack, And Flutter. Proficient in .NET development, React.js, and cross-platform mobile application development using Flutter. Skilled in building scalable RESTful APIs, implementing secure authentication, and designing responsive user interfaces. Strong foundation in Data Structures, OOP, and database management. Seeking an opportunity to contribute to innovative projects and deliver high-performance solutions.

SKILL

- Programming Languages : Java , Python , SQL
- Front-End : HTML, CSS, JavaScript, ReactJS, Flutter
- Back-End : NodeJS, ExpressJS, ASP.NET
- Databases : MS SQL , MongoDB
- Fundamentals : DSA , OOPTECHNICAL
- Soft Skills : Problem-Solving , Team Collaboration , Focus & Discipline

LANGUAGE

- English
- Gujarati
- Hindi

PROJECTS

E-Discovery Management System (Internship Project)

- Tech Stack: ASP.NET Core Web API, React.js, SQL Server
- Developed a role-based E-Discovery Management System for legal workflow automation.
- Designed and implemented RESTful APIs using ASP.NET Core Web API.
- Built a dynamic frontend using React.js for efficient user interaction.
- Implemented role-based authentication and authorization with two user types: Super User and Normal User.
- Enabled Super Users to manage users, jobs, and tasks, including assigning tasks to other users.
- Restricted Normal Users with controlled access, allowing operations only on assigned jobs and tasks.
- Developed a permission management system with configurable roles, task types, and status types.
- Designed optimized SQL database schemas for efficient data handling and performance.

Tailor Management Application | 3rd Year | Sem : 6

- Tech Stack: MERN (MongoDB, Express, Reactjs, Nodejs), JWT, bcryptJS
- Developed a fully responsive and scalable movie ticket booking website.
- Implemented secure authentication (JWT & bcrypt) for users and admins.
- Designed an efficient search, scheduling and booking system.

Movie Ticket Booking System | 2nd Year | Sem : 4

- Tech Stack: MERN (MongoDB, Express, Reactjs, Nodejs), JWT, bcryptJS
- Developed a fully responsive and scalable movie ticket booking website.
- Implemented secure authentication (JWT & bcrypt) for users and admins.
- Designed an efficient search, scheduling and booking system.

WORK EXPERIENCE

Knovos India Pvt. Ltd. | Software Developer Trainee

JAN - APR - 2026

- Learned and applied ASP.NET Core Web API, React.js with TypeScript, and DBMS concepts and Microservices architecture.
- Worked on a live E-Discovery Management System for legal workflow management.
- Implemented role-based authentication with Super User and Normal User access control.
- Utilized API Gateway for routing and managing backend services.
- Collaborated with team members to develop, test, and deploy application features.

EDUCATION

DARSHAN UNIVERSITY - 2022 - 2026

B.Tech | Computer Science & Engineering
CGPI: 8.34

SHAKTI SCHOOL - 2022

2022HSC | GSEB - Percentage: 72.34%
